20 Hour SAFE Comprehensive: Essentials of Mortgage Origination (Course ID:1190) - Offered in Partnership with the California MBA

Essentials of Mortgage Origination presents an overview of associated disciplines critical to a complete understanding of the mortgage loan production process. This boot camp-style program is designed for production managers, counselors, and other loan production staff responsible for performing and managing mortgage origination procedures. At the conclusion of the course, attendees will leave with a solid foundation, understanding the role and importance of the loan production, regulatory compliance and quality assurance functions in the mortgage banking industry.
